The diagram illustrates a 12-channel relay control system. At the top, a 12-pin terminal block is labeled J4, J2, J1, and J3, with pins numbered 1 through 12. A red arrow points to pin 2 (NEG). Below the terminals are four relay modules: SW1 (DOOR), SW2 (DOME), SW3 (VIDEO), and SW4 (READING). Each module has a 12-pin terminal block and a 12-pin connector. SW5 (MIRROR HT) and SW6 (HEATER OR LIFT) are also shown. A central circular component is labeled BZ1. The diagram includes various labels for components like LEDs, switches, and relays, and a legend for the terminal block labels.

Terminal Block Labels:
